Utilities

# Mer Project Open Build Service

<https://build.merproject.org/>

# Open Build Service

- Git → obs webhooks
- Персональные репозитории
- Возможность предлагать свои библиотеки для включения в репозитории mer и jolla

# Исходные коды

# Git репозитории

- <https://git.merproject.org/groups/mer-core>
- <https://github.com/sailfishos>
- <https://github.com/sailfish-sdk>

# Модификация

# SAILFISH OS

# Причина

# Возможности

```
[nemo@Sailfish ~]$ cd /usr/share/lipstick-jolla-home-gt5/
[nemo@Sailfish lipstick-jolla-home-gt5]$ find . -name "*.qml"

```

# Примеры

# MazeLock

- Возможность устанавливать графический ключ в качестве кода блокировки
- Выбор сетки ключа от 3x3 до 6x6
- Защита от перебора и случайных нажатий

# Launcher combined patch

- Кастомизация стандартного лаунчера
- Возможность выбирать стиль папок:

# Powermenu2

- Встраивание быстрых настроек в меню выключения и шторку «Атмосфер»
- Настраиваемые элементы настроек
- Возможность добавления приложений для быстрого запуска

# Undocumented API

- <https://github.com/CODeRUS/better-sailfishos-qmltypes>
- Git (слайд 13)

# Ответы на вопросы

# Спасибо за внимание!
